

PARTY at MiraMar Print Lab

A **PARTY** at MiraMar Print Lab is 2-3 hours of creative (any maybe a bit messy) fun that introduces participants to a new process of artmaking. The host will decide the theme and color palate for the group. The shop is set up to comfortably accommodate 12 active participants. Activities will be designed for the age of the guests. Smocks are supplied.

On the day of the party: We'll start with a warm up exercise to introduce the participants to printmaking (a quick monotype or stamping). Following the warm up, the participants will begin their project, and as the project is completed and drying, the group will move on to any food & beverages the host has brought to distribute. MiraMar Print Lab fee not including food is \$350 for 12 guests.

Three **PARTY** Options:

Print an Edition: Relief Printing with foam or soft block. Each guest creates one relief block they can use to make multiple prints on paper. All blocks are combined to make a poster for the host.

T-Shirt Design: Several silkscreens are set up with stencils that the guests use to print designs on a T-shirt that they could take home with them. Alternative printing techniques are also explored.

Poster Printing: Using a variety of stencils and the etching press, participants ink and collage their stencils to make fun images. Guests can work independently and collaboratively to create images.
